Whatever the mission, wherever, whenever

KERAX 8x8

KERAX 8x8 is a logistics vehicle capable of exceptional all-terrain performance. It offers to the military, civil security and international organisations low procurement and running costs across a wide variety of missions such as personnel transport, cargo, recovery, tanker or shelter...

For specific theatres of operation, KERAX 8x8 may be fitted with a cab highly protected against ballistic threats, mines and IED.

The French armed forces and others across the world already entrust the KERAX for their missions on the national territory and abroad.

LOW ACQUISITION AND MAINTENANCE COSTS

- Supported by the civilian concessionaires network

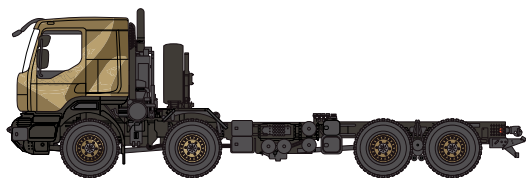

MOBILITY

- Cross-country high mobility
- Rapidity and ease of deployment: air transport in C-130 and A400M

COMPLETE RANGE OF CARRIER AND TRACTOR

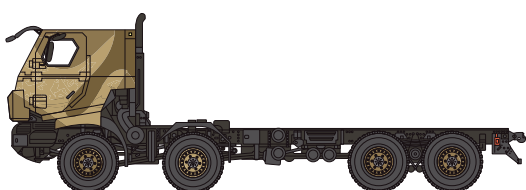

- Large number of different versions: troop transport, cargo, tankers, shelters, flatbeds, tank transporters, weapon systems, recovery vehicles, etc.
